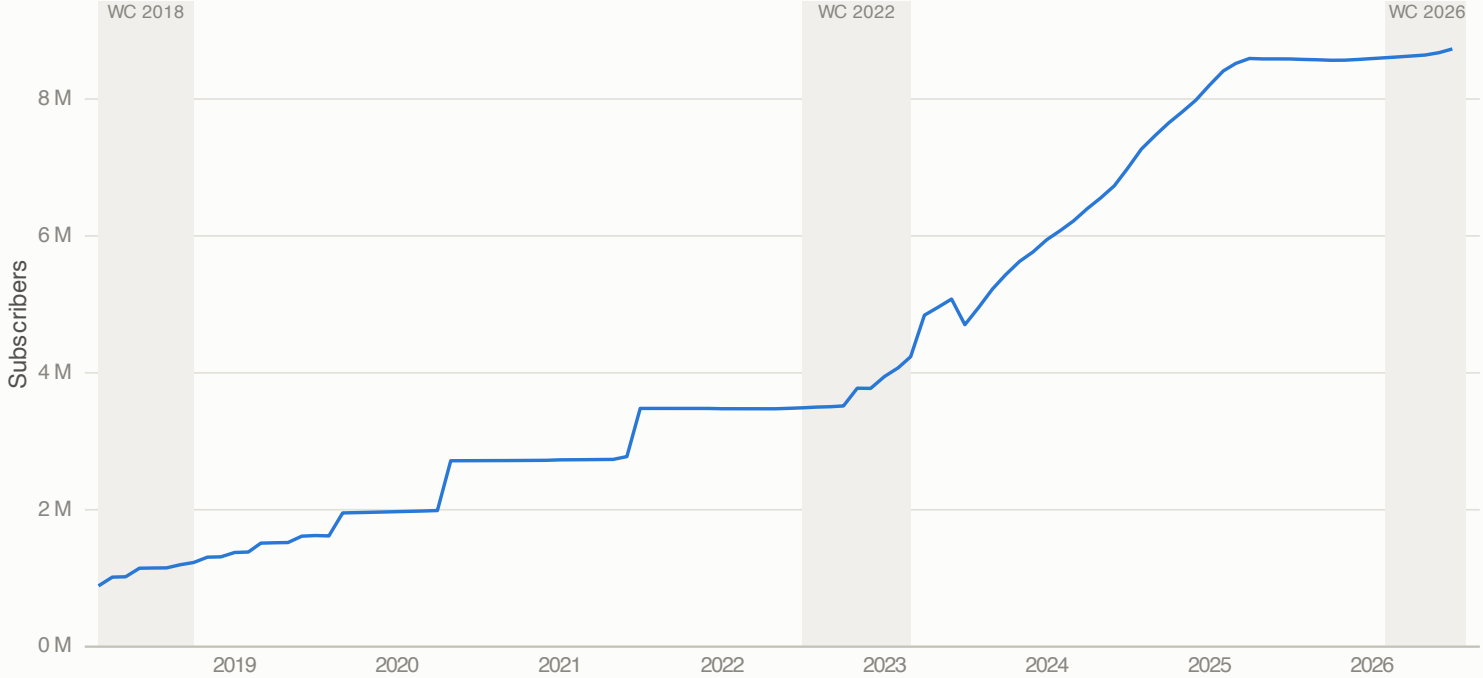
Subscribers to r/soccer, 2018–2026

Monthly median of the subscriber count recorded with each post; shaded: World Cup period bins



subreddit_subscribers, recorded by the Arctic Shift archive when it fetched the post (crawl time), not when the post was made; present from March 2018 only (no values for 2010–2017). Until mid-2023 the archive fetched posts weeks to months late, so the series moves in steps and lags the real count (codebook limitation 11).
